**Two signature buildings, one connected
community in downtown Los Angeles.**
It's what you've been looking for all along.

Anyone can build something for everyone. We think
it is more interesting to build living spaces for people
who know what they want.

We call it Thoughtful Living.™

We created WREN with a specific tribe in mind, not a demographic or a generation. We designed WREN for people who value the same things, who share a similar approach to life, and who appreciate the details. We envisioned a residential experience that is more intuitive, more fluid, more streamlined. From day-to-day living to evening and weekend entertaining, we understand what's missing from DTLA and created something uniquely beautiful in South Park.
